

Innovation is our passion.

Securecell is the trusted partner for biopharma, enabling them to bring new therapies to patients in a safe, efficient, and economical way. We innovate ground-breaking measuring and control engineering technologies to radically improve bioprocessing, medical treatment, and patient health. For more than 25 years, we have been delivering innovative solutions in bioprocess control for biotech, pharma, and academia. This expertise and experience provided the fundament for the technology transfer into the MedTech space and the development of Seraccess®, a truly disruptive diabetes therapy.

Continuing steadily on our sustainable innovation path and growth journey, we are looking for a

Software Tester

for **Lucillus® PIMS**, our process information management system for bioprocess development.

You will join our Agile Scrum team to plan, implement and perform system-, integration-, component- and regression tests. With your quality awareness you ensure that our customers get the desired, reliable product.

- Solid software testing experience
- Ability to interpret requirements and turn them into tests
- Experienced in agile software testing
- Experienced in automated testing
- Preferably you have experience in Python, scripting languages and Oracle databases.
- Knowledge of Squish for Qt advantageous
- Operating system knowledge of Windows and Linux.
- You like to work independently and use your strong problem-solving abilities in a goal-oriented way while collaborating and communicating well in international and intercultural settings.

Our offer

Securecell offers a highly diverse international working environment and the opportunity to collaborate with highly skilled individuals from various disciplines. Partnership and interdisciplinary collaboration are at the core of our company, our research activities and the commercialization of our marketed products. We nurture true innovation and creative thinking to advance our research projects as well as to continuously improve our marketed products. At Securecell, you will discover a challenging job, inspiring colleagues and a true purpose. We are looking forward to hearing from you!
